Giovanna Price Pottery

Exhibition details

My hand built pottery is inspired by natural forms and vistas and each item is unique. Much of my work is influenced by the dramatic landscapes and diversity of natural forms found in my native Sicily reflecting the deep colours of the Ionian Sea

and the snowy slopes and lava of Mount Etna. I've also drawn on the Warwickshire countryside and diverse influences from my travels to places such as South America, the USA and Egypt to produce the subtle curves, patterns and textures that are emblematic of my work.
